

# EUROPEAN UNION

## MEMBERSHIP COSTS

OVER £20 BILLION A YEAR

£385 MILLION A WEEK

- 1 EU COST:** The EU costs the UK more than £20 billion a year. This is £385 million a week/£55 million a day.
- 2 FINANCIAL INCOMPETENCE:** Auditors have refused to approve the EU's accounts for the last 15 years.
- 3 EU CORRUPTION:** £6 billion of EU cash unaccountably go "missing" every year.
- 4 UNCONTROLLED BORDERS:** Mass inflow of labour raises unemployment, depresses British wages and increases homelessness. It also makes England the most densely populated country in Europe.
- 5 LOSS OF SOVEREIGNTY:** 70% of our laws are imposed by unelected EU bureaucrats, with over 100,000 costly regulations on British citizens and businesses.
- 6 EU UNDEMOCRATIC:** Individual MEPs have no executive power to initiate EU law. The power rests with unelected EU bureaucrats.
- 7 EURO CURRENCY FIASCO:** The Euro is a disaster, destroying jobs, growth, and drives up costs and debt. **KEEP THE POUND.**
- 8 BETTER TO LEAVE:** Like Switzerland and Norway, the UK will be able to trade freely with the whole world.

**British Democrats** - *real hope for the future*

# IMMIGRATION CONCERN?

Regain border control

LEAVE the EU

## The European Union *is part of a Global Union*

The EU is constantly negotiating free trade agreements, with other countries and trading blocs. The admitted aim of these negotiations is to attain the goal of global free trade, which goes hand-in-hand with global mobility of capital and labour. If you have global free trade, countries will be forced to accommodate to a global wage level. This means that wages in developed countries will have to fall to enable them to compete, even in their home markets, with wage levels in the Third World. **The EU has moved inexorably towards a common immigration and asylum policy**, which means that the EU will be able to tell us how many people from the Third World we must accept.

## We are anti-EU *but we are not anti-European*

We want the United Kingdom to leave the EU as a fore-runner to other EU countries following our lead in regaining their independence. The European Union legislates for member states in ever-expanding areas of law. **As long as we are a member of the EU, the UK Parliament's sovereignty is effectively suspended.** The EU has disrupted its own member countries too. Poorer member states have seen an exodus of vital workers to the detriment of their economies and societies.
